New Amenity

As Part of Our Ongoing
Commitment to Residents,

We are Proud to Announce

Our Community has Recently Installed
**Electric Vehicle
Charging Stations**

The EV charging stations are located in the garage, and are compatible with all plug-in hybrid and fully electric vehicles. Due to the limited number of chargers, the EV parking spots are for electric vehicles only. If your vehicle is not charging, you may be ticketed or towed.

Our community has partnered with Blink Charging for the installation of the EV chargers. Blink offers guest charging or member charging. A Blink membership is free and entitles you to reduced charges rates. We encourage you to learn more about Blink, the costs associated with the charging stations, and to become a member at www.BlinkCharging.com or (888) 998.2546

Download the Blink mobile app
and enjoy discounted rates today!
